Subject: UPDATE

Hello Jim,

I fully understand how busy you are. As usual, you hit a home run. I await the unredacted reports.

Based on the NDMA & PAH migrations it seems like a permanent local water solution is in order. I'm thinking an evaporative/distilling unit dedicated to users, perpetually maintained by Olin is in order.

Thanks also for the CFR information.

Let me know your thoughts on implementing the water solution.

All the best,

SDMS DocID
